FOR IMMEDIATE RELEASE:

Girard Equipment introduces the sSmart Vent™ All-in-One Pressure Vacuum Relief Vent for IBC'S

Girard Equipment, Inc., a global supplier in of tank components, recently unveiled the latest product to their ever-growing line of IBC Pressure/Vacuum Relieving Vents. The 2" sSmart Vent™ along with our 3" Stainless Fusible Cap, will give you all the protection you will need for most intermediate bulk containers. The sSmart Vent™ fits into a standard 2" bung port; the design features a cast stainless guard to protect the vent against impact damage.

Engineered for low maintenance and easy cleaning, this vent offers superior protection for metal IBC'S. The sSmart Vent™ has a "quick venting release" feature built into its design. Pressing down on the rain cover releases internal pressures insufficient to trigger automatic venting. This feature proved to be most beneficial to operators who may experience "splash-backs" when trying to open IBC's due with built up pressures within the tank. A machine ring groove allows the vent to be tethered directly to the IBC.

Some of the unique features that make the sSmart Vent™ so smart:

- All cast and precision machined stainless steel
- Low profile design
- "Quick Venting Release" QVR feature
- Rugged and durable
- Compact and easy to install
- Electro-polished to allow for each cleaning

Girard Equipment, USA is North America's leading builder of pressure control equipment for road tankers, IBC's, Rail Tank Cars and tank trailers. Girard has sales centers in LaPorte, TX and Linden, NJ with branch offices in Chicago, IL, Rotterdam, Beijing and the United Kingdom.
